

GCSP-012-G
SYNTHETIC GRAPHITE INTERFACE MATERIAL

GCSP-012-G is a highly orientated synthetic graphite

Features

- High thermal conductivity
- Low contact resistance
- Highly adaptable to surface
- Can be used in multi-layer

Configurations

PART NUMBER	TOTAL THICKNESS (MM)
GCSP-012-G	0.012

Properties

CHARACTERISTIC	TEST METHOD	VALUE
Colour	Visual	Grey
Sheet size, mm		150x300
Thickness, mm		0.012
Thermal conductivity W/m*K	ASTMD5470	10.0
In-plane, thermal conductivity W/m*K		1800
Specific gravity. g/cm3	ASTMD792	2.1
Dielectric strength, kV/mm	ASTMD149	NA, conductive
Operation temperature (°C)	EN344	-40 to +400
